BUSINESS EXPERIENCE

Texas Oncology

August 2012 – August 2016

Senior Pharmacy Technician

- Prepared intravenous admixtures under the strict rules and regulations of parent company, PTCB, and HIPAA.
- Processed treatment plans by utilizing the latest EMR software (iKnowMed) in use by treating physicians.
- Managed pharmacy supplies and medication inventories.
- Developed a cost saving ordering process by ordering directly from the manufacturer which saved the company 29% - %37 of the cost of certain medications.
- Analyzed daily physician orders to ascertain the dosages needed for each patient.
- Oversaw pharmacy operations by updating quality assurance metrics

Coram/CVS Infusion Services

December 2011 – August 2012

Certified Pharmacy Technician (IV)

- Prepared intravenous admixtures including but not limited to: total parenteral nutrition, chemotherapy, antibiotics, iron, programmable take-home pumps and syringes.
- Assessed the scheduling of daily orders in conjunction with Coram's logistics team.
- Trained new employees in the preparation of various IV compounds.

ACADEMIC PROJECT

Business Communication

January 2018 – May 2018

- Collaborated in a team of 4 members in creating an Amazon recycling program that incentivizes Amazon shoppers to recycle their shipping boxes.
- Developed a 29 slide power point presentation detailing the effectiveness of our program and the financial advantage our program has to offer to our members.
- Identified key factors that could encourage our community to recycle and incentivized our members to participate. Our program was awarded the opportunity to present our project to a panel of 5 judges in the Business Giveback Competition of the Jindal School of Business.

Business Marketing

January 2017 – May 2017

- Developed an 8 page group project proposal regarding Barnes & Noble's competitiveness in its current marketing position where their reliance of maintaining a retail book-store environment is not enough to compete with e-commerce practices used by Amazon and Apple Inc.
- Developed a 20 minute interactive presentation showcasing the loss of revenue vs. the competition due to the demand of convenience shopping through e-commerce vs retail to a full class of 50 students.
- Reviewed Barnes & Noble's strength and weaknesses in its position in the market place and how they can compete with Amazon and Apple Incorporated.
